

Get Started on Your Carbon Snapshot

Before you begin, 3 things to know:

01

It's about progress, not perfection

Starting your Carbon report is a giant leap for your business. Input what you know, and as you gather more data, your carbon footprint picture will sharpen.

02

Tell us about your business activities

Our emissions engine will turn that into CO₂e numbers in a snap. It's like having a sustainability translator at your fingertips.

03

Your carbon report can be kept, and edited

If you want to keep your new report, we'll even email you a copy to revisit and revise whenever you're ready.

What are the 3 scopes of carbon?

Scope 1

DIRECT

Includes direct fuel combustion covered by your company's fuel expenses or assets.

- Petrol in company cars
- Heating oil and gas
- Fuel to power equipment

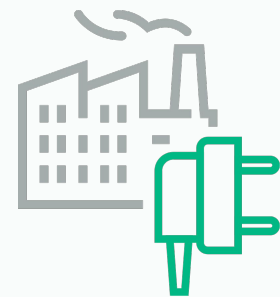

Scope 2

INDIRECT

Indirect, as your company buys energy but doesn't produce it or its emissions.

- Electricity
- Heat
- Steam
- Cooling

Scope 3

INDIRECT

Upstream and downstream value chain emissions. Typically 90% of your footprint.

UPSTREAM

- Purchased goods and services
- Capital goods
- Fuel and energy related activities
- Transportation and distribution
- Operation waste
- Business travel
- Employee commuting
- Leased assets

DOWNSTREAM

- Transportation and distribution
- Processing of sold products
- Use of sold products
- End-of-life of sold products
- Leased assets
- Franchises
- Investments
